Cybersecurity - a professionally-focused, relevant and practical graduate degree

» Courses are designed to prepare technical professionals and others in the ‘cyber’ fields to fill management and leadership roles in cybersecurity, cyber operations, and/or related organizations in the government or private sector.

» Students gain applicable skills that speak to the needs of the operational cybersecurity workforce in Maryland.

» Cybersecurity is a critical domain of global competition that reaches across social, economic, political and military realms of influence.

When you choose UMBC Professional Programs, you can count on:

» Classes taught by cybersecurity industry experts with significant current professional experience.

» Flexible evening, hybrid, and/or weekend class schedule that accommodates working professionals.

» Wide-ranging resources offered at a top-notch public research university.

Why UMBC?

» UMBC is uniquely positioned to provide education and training that respond to the state’s need for qualified technical professionals in the cybersecurity field.

» The 2017 U.S. News & World Report Best Colleges guide ranks UMBC in the top five on its closely-watched Most Innovative Schools list and has recognized UMBC as a global leader in higher education.

» UMBC is certified as a National Center of Academic Excellence in Information Assurance/Cyber Defense Education (CAE-IA/CD) as well as a Center of Academic Excellence in Information Assurance/Cyber Defense Research (CAE-R) sponsored by the National Security Agency and Department of Homeland Security (DHS).

» UMBC provides a comprehensive and quality education at a manageable cost.
